

As a lifelong resident of Kenosha, I am so very proud to call Kenosha my home and I feel very strongly and passionately about making it a better place to live, work and play.

As a retired Information Technology executive with U.S. Bank, I have a proven track record for strategic leadership, managing multi-million dollar budgets and contracts and implementing strategies to reduce costs while maintaining or improving services.

Upon retiring, civic volunteerism has brought fulfillment to my life by connecting me to our community and making a positive difference. Our beautiful public coastline on Lake Michigan has been the driving force for the charitable organizations and leadership roles, Kenosha HarborMarket Treasurer, Kenosha Art Walk President and Southport Park Association Secretary, I have been involved with so far.

In addition to my professional resume, I was raised by two professional chefs. They taught us the importance of supporting the local economy by buying farm-fresh and locally grown produce. I was a food vendor at a market in 2007 preparing and selling Armenian food. I loved being a part of a vibrant community marketplace.

I am a wife, mother of two adult sons and Grammy to two adorable grandsons. When just kicking back, you can find me gardening or taking a bike ride on the 25+ miles of county & city bike paths with my husband Greg, a retired firefighter, and enjoying our lakefront with our energetic chocolate Labrador, Boomer.
